# FUSION

is a ministry of LCBC that exists to provide an environment for singles 30 and older to connect with God and each other in ways relevant to their life experiences.

We function as a step between our weekend services and connecting into one of our small groups. Regular opportunities are provided for moving into a small group as well as finding a place to serve within LCBC.

Fusion is not a dating service or a political forum. We see ourselves as a ministry to those who are legally divorced, widowed, or have never been married.

We ask that recently-divorced individuals attend DivorceCare before actively participating in Fusion
