

Week 1

We're going to write some thoughts down today so either grab your Bible app so you can make notes, open your bible to write notes in the margins OR I have a few Bibles here and some notecards you can write on - AND if you want or need a bible to use at home let me know I can help you find one!

Leader make sure you grab a few Bibles before Group time tonight for new students especially, and talk to your campus staff if a student wants/needs a Bible of their own!

If you had to make a rule for the world to follow, what would it be?

What's one decision you made today that seemed really easy?

What's a decision you've made recently that you felt was important?

When you make decisions, who or what usually influences your choice the most? (Friends, parents, people online, etc.?)

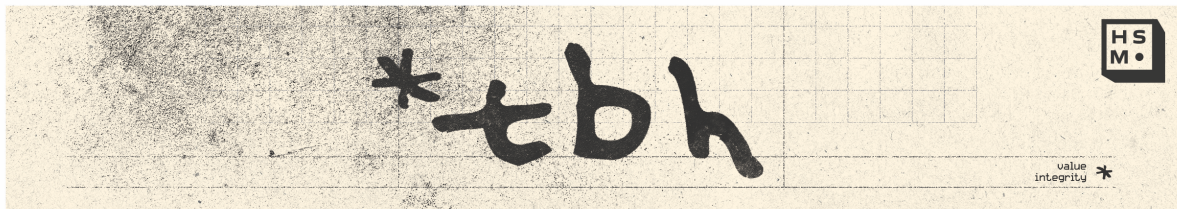

Have you ever been in a situation where someone acted one way around one group and completely different around another? How did that experience affect you?

Read Proverbs 11:1-3

In your own words, how would you define integrity?

What's one way this week you can show integrity...

- a. At school?
- b. At home?
- c. With your friends?
- d. On social media?

**Note for Senior Group Leaders: This month we will begin to allow our senior students to take on a more active role of Group time if they haven't already. We want them to learn how to create community for themselves as they get ready to launch from HSM and potentially their homes and church community. Our job is now to help them learn how to find community, create it, and lead in it. Each week we'll be giving you a tip or role for a senior to take on.*

*This week **identify a senior to co-lead** alongside you. A co-leader is someone who leads when the leader is absent and someone who helps facilitate the conversation. Pull them aside during pre-gathering and go over which pieces of the Group guide you want them to own and which pieces they could support conversation in.*
