Looking Back - May 24/28

Option 2 - Panel

What's something that resonated with you from what the upperclassmen said?

What are ways that you've seen God grow and change you during your time in high school so far?

What's something from this year that God taught you that you don't want to forget?

What's an area that you want to grow in before you graduate high school? What do you need to do to make that happen?

Next Step: Have everyone in your group take some time to write a letter to themselves in the future, identifying goals for the future and ways they hope to grow and change.

*Leaders: Keep the letters until your group graduates- then open them together!
