

Week 2

In your own words, how would you define "context"?

Share about a time you read something super confusing or unclear in the Bible.

On a scale of 1 to 10, how easy would you say it is to understand the Bible?

How can having context help make something like the Bible clearer for us?

Let's read 1 Peter 5:7 together. Then, let's try to answer these questions for context:

- a. Who wrote this and who was it written to?
- b. Why was it written down?
- c. What made people think this information should be written down or saved?
- d. Is it helpful to me or not?

How did context help you understand or experience that verse differently?
