

## Week 1

What do you think most people would say is the point of the Bible?

What's one reason someone might be interested or uninterested in the Bible?

How have you seen other people misuse or misunderstand the Bible?

How have you seen the Bible used in positive ways?

How might reading the Bible help us know more about God?

This week, what's one step you want to take to learn more about God by reading the Bible?

This week's Application section asks students to answer three questions as they read the Bible: 1) What does this teach me about God? 2) What does this teach me about me? 3) What does this teach me about how I need to live or treat others? To help students apply these to their readings, model it for them during group!
