

## **Your Move**

### **Week 3 - September 30-October 2**

What is something that you do that you wish everyone knew about?

When you do something good for another person but don't get any credit, how does that make you feel?

Why do you think that we want to get credit for the things that we do?

### **Read Matthew 20:26-27**

Jesus was reminding the disciples that they need to serve people and not just use them. Can you think of a time in your life when you tried to serve someone but ended up using them?

Why is it difficult to just serve people without an ulterior motive?

Is there a place that you feel like you could serve? Maybe it is here at LCBC, in your community, at home.

How is serving a method of caring for our community?

*Students write a thank you note to a serving area at LCBC, thanking them for serving and how their serving has affected or encouraged them. List the different areas. Have paper and markers for each group. Students Staff will collect and give to the staff member who oversees that serving area.*

**Next Step:** Have students identify one area in their lives where they can start serving. Take time to share as a group and pray for each other.
